5. **Any Other Matter:**

Mike Gast noted that there are some residents that have been looking into adult activities for the township. Like a sub committee to the Park and Recreation Commission. I need

the Park and Recreation opinion on this matter. We can either work as a group or separately.

Lauren Durham noted that she is open to all who want to add ideas or volunteer with the group. Her only concern would be if we could handle any additional events.

Matt Day noted that he joined the Park and Recreation Commission to be able to contribute to the community from a Recreational stand point and from a Parks stand point. The committee may benefit from adding additional focus / resources on the parks, as part of the commission.

Brooks noted that we have to have organization on this committee; we need to be able to communicate to one another.

Meeting Adjourned 7:15 PM

Respectfully Submitted,

Teresa DeStefano
