

A Reminder About Fallen Tree Limbs

Dear Residents,

We hope you have been safe throughout the February storms. As the weather begins to warm up, please take a moment to see if any of your trees have dropped any limbs within the public right-of-way. Please be aware that the right-of-way typically extends 4 to 5 feet beyond the edge of the actual road. By removing the fallen tree limbs from the right-of-way, it will help ensure the safety of everyone who travels on our roads.

If you need assistance identifying where your property ends and the right-of-way begins, feel free to contact the Township office at 610-399-1425 or send me an email at bbovero@thornburytp.com .

Thank you for your cooperation in this matter, and have a safe Spring.

Sincerely,
Brody Bovero
Thornbury Township Manager
