PHYSICAL DESCRIPTION:

The house at 1383 Creek Rd. is a five-bay, one-and-a-half-story, side gable, stone and aluminum-sided, California ranch house. Its roof is clad in asphalt shingles. The fenestration is asymmetrical. It has an off-set front gable on the east end of the southwest (front) elevation and a massive stone chimney on the west end of the front elevation. The house was built with a five-bay main block and two smaller wings. The first wing was attached to the main block's northwest elevation, and the second wing that houses the garage was attached to the northwest elevation of the first wing.

HISTORICAL NARRATIVE:

This house appears to have been constructed in the mid to late 1950s.
